## CURBSIDE LEAF COLLECTION

The main objective of the Loose-Leaf Collection Program is to increase the level of service to the residents while protecting the local infrastructure and environment.

It is estimated that the average resident spends six hours per season bagging leaves (depending on leaf bulk and size of lot). With more than 4,000 households in the community, the loose-leaf collection method reduces the overall time spent bagging by 24,000 hours. Not having to purchase special bags for leaf collection (during this time period) saves money and time.

Although this method is very efficient, there are still some challenges that arise every year. These include parked cars blocking leaf piles, leaf piles put in the street earlier than scheduled collection day and other challenges that come with 73 dead-end streets and cul-de-sacs.

Success is dependent on a few Dos and Don'ts:

- 1) **Do not** park in the street during collection day – leaf piles that are inaccessible cannot be collected. Due to equipment and manpower demands, there will be no “special pick-ups” for leaf piles that are obstructed by a vehicle or put out after crews have passed by.
- 2) **Do not** put leaves in the street prior to 5:00 p.m. the night before your collection day, but they may be stored between the curb and sidewalk no more than 4 feet from the curb.
- 3) **Do not** allow children to play in leaf piles near the street. It may be fun for them, but it puts kids in extreme danger from passing vehicles.
- 4) **Do** separate brush from leaf piles. This way, the brush can be collected and loaded by hand.
- 5) **Do** exercise caution when driving around our leaf collection crews. Our City has many narrow streets, dead-ends and cul-de-sacs that are challenging for crews to maneuver on.
- 6) Contractors are expected to remove their own debris.
- 7) As always, once the bulk loose-leaf collection begins, leaves and brush will be collected the business day after your rubbish collection.

Your cooperation in following these requests will help our DPW workers do their jobs safely and efficiently. For further information, contact the City Hall at (313) 885-6600.

## Recycling

Recyclables are picked up the same day as regular trash. Place recycling bin at curb for collection on your regular rubbish collection day by 7:00 a.m. In the event of a holiday, pickup will be postponed one day the same way regular rubbish pickup is delayed one day. Review the list of recyclable materials listed below
